Ontario Teacher Pension Survey

The Ontario Teachers' Federation (OTF), the Ontario government, and the Ontario Teachers' Pension Plan (OTPP) have hired POLLARA, a national research firm, to conduct a survey of pension plan members to gauge their understanding of pension plan provisions and issues.

The information gathered in the survey will help guide pension educational efforts for members.

POLLARA will be conducting telephone interviews during the month of February. Specifically, some pre-testing of survey questions will occur February 7-13, 2012 and the survey itself will be conducted between February 15-29, 2012.

The survey has been constructed with the co-operation and approval of all three parties (OTF, OTPP and the Government of Ontario). Participants are being randomly selected. You could receive a telephone call requesting an interview.

OECTA encourages members to participate in this survey.
