Registration underway for new OECTA Kindergarten AQ Course

OECTA is offering a new Kindergarten Additional Qualification (AQ) course this summer. OECTA's AQ courses are accredited by the Ontario College of Teachers and are open to all teachers in Ontario. Spaces are limited, so register now!

The Kindergarten course provides teachers with an in-depth look at the Kindergarten program, allow teachers to build on their existing knowledge and experiences and to develop new understandings to plan and organize appropriate learning experiences for the young learner.

Registrants for the Kindergarten AQ course must hold a valid Ontario College of Teachers' Certificate of Qualification

or Interim Certificate of Qualification and have their primary basic qualification.

All courses run in various locations across Ontario, from August 4 - 20, Tuesday to Thursday, starting at 8:00, usually for seven hours.

Course fees are \$650 and participants may pay by Visa, Mastercard or cheque.

Visit OECTA's website, www.oecta.on.ca, to find a course in your area and to register online.

Two other new courses are available for the first time, running from August 4 to 20. They are Teaching Combined Grades and Mathematics, Grades 7 and 8.
